

AMERICAN FALLS WHEN NEAR GOAL

McCurdy Rouses Sympathy
by Falling While
Racing

STOCKHOLM, July 9.—There was every prospect this morning of an off day in the Olympic games, the only final on the program being the 400 meter relay race and throwing of the javelin. The right and left handed relay race proved a sensation. It finished with Great Britain and Germany so close that only the judges could separate the winners. The Englishman, Applegarth, got the decision. The committee disqualified Germany.

What made assurance doubly sure was that the contestants of the northern nations had the javelin throw all to themselves, but it was intensely exciting when the Finns won that event in one, two, three order. They broke two world records.

The seven preliminary heats in the 1,500 meter flat race furnished good exhibitions. The spectators failed to understand that competitors were not running to win races, but merely for places in the finals in the last heat of 5,000 meters. An American, William McCurdy, made a brave attempt to win, but when he rolled in the grass almost within reach of second place in the last event, he raised the sympathy of every spectator.

The committee has arranged to compromise the matter of semi-finals in the 100 meter swimming competition. Americans, by misunderstanding, had failed to appear for semi-finals, which were contested on Sunday. The jury decided that an extra heat, consisting of three Americans, Duke, Kahanamoku Huzzagh and McGilivray, and Massa, of Italy, should be contested this evening, and if they beat the arbitrary standard of one minute and one-fifth seconds, the first two men should qualify for the final.

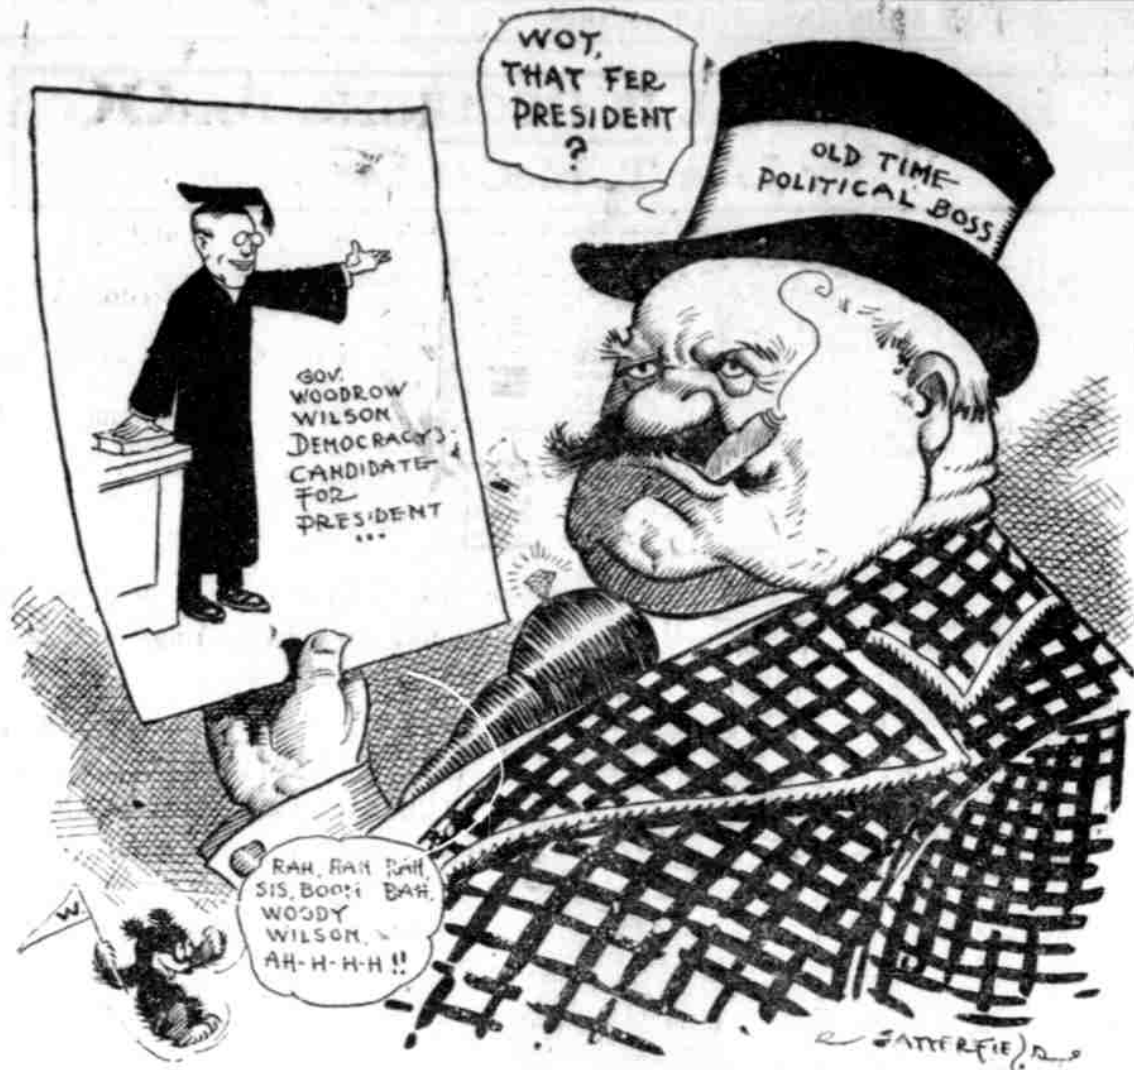

The Hawaiian, Kahanamoku, was easily first, in one minute, 2-5 seconds, which equals the world's record he made in winning his trial heat. He led all the way. Huzzagh beat McGilivray and qualified for the final.

There had been some criticism as to whether the Hawaiian should compete as an American, but it was pointed out that he held the same position as the Indian, Kanji, who for years represented England in cricket. Harry Heber, and American, won the first heat in the 100 meters back stroke in one minute and twenty-one seconds, the fastest time in any of the heats.

THAW WOULD BE SAFE IF SPECIALLY GUARDED

WHITE PLAINS, N. Y., July 9.—Dr. Adolph Myer, one of Thaw's alienists on the stand today in Thaw's insanity proceedings denied that the manner in which Thaw killed White was "typical of paranoiac murder."

Under cross-examination by Jerome, Myer admitted he owes his present position as one of the faculty at the Johns Hopkins university to relatives of Thaw.

Dr. John W. Russell, head of the Matteawan asylum said that Thaw if released and allowed to go back to his old manner of living, might commit murder. He said, however, that Thaw could safely be released in care of special attendants.

SHARP FIGHT IN ATLANTIC CITY

ATLANTIC CITY, N. J., July 9.—This most famous of the world's sea side resorts has experienced many sensations in its time, but it is safe to say that nothing has ever aroused its inhabitants to such a high pitch of excitement as today's municipal election—the first to be held here under the commission plan of government.

The commission plan was adopted about a month ago following the exposure of alleged political corruption and graft in municipal affairs that would have put to shame the political ringsters in some of the largest cities of the country. The exposure was brought about largely by Detective William J. Burns and his detectives.

When all the evidence of alleged graft had been made public the better element among the citizens decided they had had enough of the old order of things and turned to the commission plan as the best remedy in sight.

On June 11 a primary was held for the nomination of ten candidates for members of the Board of Commissioners, and today's election was held for the selection of five of the ten. These five will comprise the board.

When the results of the primary were tabulated the public was somewhat jarred to find that Mayor Harry Bacharach, under whose administration the grafters are alleged to have flourished received the highest vote and was entitled to first place on the list of candidates for commissioners. Also among the successful ones were Dr. Jesse B. Thompson, millionaire banker and hotel man and leader in the fusion movement a year ago to oust of "machine" from office, and Dr. P. L. Hawkins, a negro physician. A peculiar feature of the situation was the fact that in today's election the old "machine" which put Mayor Bacharach in office last fall worked strenuously to prevent his election as commissioner. The reason for this is to be found in the practical certainty of Dr. Thompson's election to the board and who, with Mayor Bacharach and others running with them on the ticket, are pledged to sweep the city hall clear of all the present office holders. The new commissioners will take office on July 16, when the present system of government will cease to exist.

Haines and Durnan have been training faithfully since the articles were signed and both appear to be in the best of physical condition for the race.

POLICE CHIEFS IN SESSION

TORONTO, Ont., July 9.—The annual convention of the International association of Chiefs of Police met in this city today and was called to order by Major Richard Sylvester of Washington, the president of the organization. The attendance included the heads of the police departments of more than 200 metropolitan cities of the United States and Canada. The association will be in session five days. Among the important matters to be brought forward is that of the proposed establishment of an international bureau of police, which will act as a clearing house for the police departments throughout the United States and Canada and co-operate with the departments in other countries.

IOWA TO BE PROGRESSIVE

DES MOINES, Ia., July 9.—Progressive republicans will control the republican state convention, which will meet in this city tomorrow. As practically the entire state ticket was named in the spring primaries the work of the convention will be confined to the nomination of candidates for supreme court judges. The "progressive" sentiment, however, will have an opportunity to manifest itself in the make-up of the platform which will be adopted by the convention.
